

Medallion Gateway Products overview

\$Id: index.xml 2431 2011-10-19 22:05:39Z brolin \$

The **Gateway** product line is a collection of low-power, embedded computers with rich communications capabilities. Gateways either include a **Medallion CPU Module** or they incorporate the same **Hardware Platform** enabling them to leverage Techsol's vast **Software** expertise and features.

Photograph	Model	Type	RS#232 ports	RS#485 ports	Ethernet ports	USB Host	USB Device	Memory card	Audio	Main memory	SSD
	GWX2	SBC	1-3	0-2	1 10/100B	4	1	1 microSD	Software controller buzzer	32 MB or 64 MB SDRAM	128 MB or more NAND
	GWX	SBC	1	1	1 10BaseT	1	1	1 SD/ MMC	Stereo Headphone Headset	32 MB SDRAM	128 MB or more NAND
	GW2	SA2410 CPU module	3	1	2 10BaseT	2	1	1 SD/ MMC	none	64 MB SDRAM	128 MB or more NAND
